

Pocket-Corner Bookmarks

For siddurim, for yourself, for gifts, for your books and just for fun!

Supplies:

- Used or new envelopes (If it's been opened, tape them shut again. New envelopes should be sealed shut.)
- Glue stick
- Scissors
- Markers or stickers

1. Print and cut out the labels you want to use, or use the blank ones to write your own labels.
2. Use another envelope to draw a line on the corners of envelopes and cut them off. You will have triangles that open on one side.
3. Glue your labels along the opening edge - that's the part that fits over the page like a pocket!
4. Decorate your bookmarks, and then you are done!
5. Ideas: decorate with pretty pictures from magazines, stickers, watercolors, or glitter.
6. Make a set for everyone in your family! How about your morah, your bubby, your neighbor, or anyone you miss? These are a super easy gift to put in the mail!
