

Shopping List Pad Project

Oh No! We're all home because of COVID-19, and we're being careful not to go out when we don't need to. This way we can help each other stay healthy, while we daven to Hashem for the virus to go away.

How can we make sure we remember all the things on our grocery list when it's time for someone to put on their mask and gloves and go to the store?

You can make a Shopping List Pad to hang in a special place in your house! Everyone will be so happy you thought of this!

1. Print out a few copies of the Shopping List page.
2. You can color in the groceries if you want, but leave some room for people to write down what they need to buy!
3. Cut out the pictures along the dotted lines, and stack them up carefully.
4. Staple them along the top if you have a stapler, or ask an adult to poke a hole through the top corners and tie with a twisty-tie!
5. Hang up and enjoy everyone telling you how clever and helpful you are!
