

Parsha Sudoku Puzzles: Sefer Vayikra

By Rabbi Benyomin Hoffman

Grade Level: Middle Elementary

Description:

These creative puzzles offer an exciting twist to the popular Sudoku game. Each parsha in Sefer Vayira has two puzzles, one for beginners and one for more advanced players, where different names, words or images from that parsha need to be inserted into the Sudoku grid.

Goals/Objectives:

Students will solve the puzzles using words and images from the parsha.

Instructions:

1. Place the letters or images into each box so that each row across and down in each box-square will contain all the letters or images.
2. Each letter or image may only appear once in every row, column and box-square.

Variations:

- These puzzles would make a great activity for a siyum on the parsha.
- Have the students create their own Sudoku puzzles using the blank template.

PARSHA SUDOKU

פרשת אמור

Place the letters (or image) into each box so that each row across and each column down and each box-square will contain all the letters (or images)

Remember that each letter or image may appear only once in any row, column, or box-square
